Mike Yamin	<i>INDOT - CRAWFORDSVILLE DISTRICT STAFF</i>
Joyce Newland	<i>FHWA - TRANSPORTATION PLANNER</i>
Theresa Claxton	<i>FHWA - INTERN</i>
Jerry Bridges	<i>MPO - ANDERSON MPO EXECUTIVE DIRECTOR</i>

OVERVIEW:

Steve Smith began the meeting with a discussion of the meeting's purpose and expected outcome. These meetings are intended to coordinate with the Districts, MPO's, and RPO's on the review of the INDOT 2006 – 2015 "Major Moves" Program, the review and identification of new INDOT Projects for prioritization and selection for the year 2016 using the new INDOT IPOC process, and the review and identification of projects for the 2017 – 2030 remaining years of the INDOT 2030 LRP.

A copy of one page from the new IPOC Process document outlining the criteria to be used for evaluating the 2016 candidate projects was also passed out. Steve also discussed the INDOT Mobility Corridor Concept later in the meeting.

Dan Buck passed out the following maps and lists for use in the project reviews: A list of the current Indianapolis and Anderson area INDOT projects in the 2004 adopted INDOT 2030 LRP, a map of the location of said projects, a list and map of 2016 IPOC candidate projects, a list of a quick analysis and map of candidate 2016 projects, and finally the INDOT Travel Demand Model 2030 Build/No-Build Build LOS maps for all projects in the Indianapolis and Anderson area as well the 2016 candidate projects.

REVIEW OF INDY/ANDERSON 2004 INDOT 2030 LRP PROJECTS:

A list of the Indianapolis/Anderson MPO 2004 INDOT LRP Projects was reviewed. Projects within the subject MPO's study area were identified and reviewed. Key projects are discussed below:

- ☐ I-465 at I-70 Interchange Modification, East Leg Phase II, LRP ID # 716: This project was not in the Major Moves Program just announced by the Governor. There was discussion as to the actual scope of work for this project. According to the SPMS schedule for this project, it is listed as work category Intersection Improvement, Safety Project. The work is for the realignment of the NE

connector ramp as required by FHWA's approval of the Interchange Justification Report. This is Phase II of the original I-465 at I-70 Major Interchange Modification completed in 2001. As such it does not need to be included as a project in the IPOC major Moves Program.

- ☐ US 36 – I-465 to SR 267, LRP ID # 104: The actual termini for this project has been revised to from I-465 to Transfer Drive. IPOC RFC 2012. Note: the balance of this project is a candidate for 2016 IPOC scoring.
- ☐ SR 37 – From I-69 N. to SR 32/SR 38, LRP ID # 153: Bob Rebling of the Greenfield District recommended that the SR 37 work be done first before the interchange work at I-69/116th Street. This would facilitate traffic flow during the Interchange construction.
- ☐ US 421 - From 146th Street to SR 32, LRP ID # 753: This project in IPOC has actually been downgraded due to the recent Engineers Report. It is now a road Reconstruction project and not Added Travel Lanes.
- ☐ I-465 - Interchange Modification at SR 67 and I-465, LRP ID # 197: This project has actually been removed due to a re-scoping of the entire I-465 widening on the West Leg.
- ☐ I-69 – at SR 238 Interchange Modification, LRP ID # 166: The RFC date for this project is moved to 2007. Note: This project is not a part of the future widening of I-69 from SR 37/116th Street to SR 238. that is a separate project.

CANDIDATE 2016 INDOT PROJECTS FOR IPOC ANALYSIS:

A list of the INDOT projects that are candidates for IPOC scoring and selection for placement in the 2016 RFC time frame was passed out.

- ☐ A copy of the Major New Project Selection Criteria (Page 12 of the IPOC Manual) was also passed out. Some discussion of the criteria was made.
- ☐ Question on I-65 Widening Project - I-865 to SR 334: This work has been moved to the 2017 to 2030 time frame of the INDOT LRP. It is not a 2016 candidate project. The question is how does this mesh with the Indy MPO LRP for that area. Would there be a potential gap in time frames between CN of this project and the I-65 widening further south.

MPO ISSUES/COMMENTS:

There were no major issues or comments from either the Indianapolis MPO nor the Anderson MPO.

REVIEW OF STATEWIDE MOBILITY CORRIDOR SYSTEM AND ACCESS MANAGEMENT GUIDELINES:

Steve Smith said that INDOT was in the process of reviewing and updating its Statewide Mobility Corridors. He invited the District to review the corridors and to make any suggestion for changes. Since the allotted time for the meeting was running short, Mr. Smith said that the District could review the maps later at its convenience and e-mail any suggested changes to him at a later date. Suggested changes would be taken under advisement as the corridors were updated.

ACCESS CONTROL:

Again, since the allotted time for the meeting was coming to a close, Steve Smith handed out a copy of proposed access management guidelines and asked that they be reviewed. Responses and suggestions could later be turned in.
